

# BV 200

## SVGA Portable Pico Projector

BellaVision, a new brand developed by Genius to advance the digital projection business, creates smart projection devices for people with unique viewpoints.

The BV 200 is a pocket stand alone multimedia projector with SVGA (800 x 600) resolution and a bright 25 energy efficient lumens brings you convenience and lightweight portability in digital projection. .

BV 200 allows you to show movies and photos from your smartphone, notebook, camcorder, DSC, PSP, memory card, etc. BV 200 has 1GB internal memory built-in for quick storage and playback and a rechargeable battery that you can use for more than two hours in ECO mode. The built-in office reader lets you share presentations anywhere for business. With its palm-size design and bundled travel pouch, you can take it with you wherever you go.

Ceiling projection kit turns the ceiling into a screen so you can lie back at home and comfortably control you media
